Hub Lions Club roars to a great start in 2011-2012

Club President Kim McCain is pleased with the start of the 2011-2012 Lions' fiscal year.

Attendance at meetings has been great, a new club project and activity survey is in the works, and the club has three prospective new members!

In addition, the club approved payment of its 100% participation in the District Governor's Humanitarian Projects, and donated \$100 and three door prizes to the Aug. 6 Great Plains Lions Eye Bank "Shoot For Sight. Not only is the "Shoot For Sight" a fund-raiser for the Eye Bank, but it allows local 4-H members to participate in a trap and skeet shoot.

And that was just August....

September plans include a Labor Day fundraiser at Sutherland's and continuation of the club's signature service project--Bingo with residents in assisted living centers. 2011-2012 marks the club's 35th year to provide fun, fellowship, and quarters to residents.

What's on the horizon?

Once the weather is cooler, the club will pick up trash on its section of the Tahoka Highway.

Also, President McCain is reviewing International President Tam's program for ways that Hub Lions Club can participate.

International President Tam has three special goals for the 2011-2012 year.

They are:

- Strengthening and retaining membership by taking care of fellow members as if they were family.
- Expanding service to new heights--especially with the special campaign to plant one million trees worldwide.
- Involving young people and Leo Club members in Lions' activities.

"International President Tam is asking clubs to make the ordinary extraordinary by increasing their impact by taking on new service projects. We are working on a club survey to see what type of new projects our members would be interested in. President Tam wants clubs to spend more time **SERVING** than **MEETING**," said Boss Lion Kim.

Also, President Tam is continuing the Lions Clubs International Global Service Action campaigns from last year.

They are:

- Focus on youth during **AUGUST**.
- Sight-related activities in **OCTOBER**.
- Feeding the hungry in **DECEMBER/JANUARY**
- Environmental projects in **APRIL**.

International President's Program
